Construction Bulletin

Starting on or about Monday, May 21st, the NYCDOT’s contractors will be conducting soil tests, tree trimming, and pedestrian counts at various locations adjacent to the BQE between Atlantic Avenue and Sands Street. The work is expected to continue intermittently, weather permitting, until Tuesday, July 31st, 2018.

These activities will help inform the BQE Atlantic to Sands Project team of existing conditions as project concepts are developed and explored. This will not affect traffic on the BQE, however you can expect to see vehicles and crews conducting soil tests at approximately 30 locations including on the Promenade, adjacent to some parks and playgrounds, on sidewalks and local streets. Pedestrian counts are also being conducted on the Promenade during this time.

Monday, May 21st – Tuesday, July 31st
NYCDOT’s contractors will be conducting:
Soil Tests – Tree Trimming – Pedestrian Counts

The BQE Project Team is available at 332-999-4520 or info@bqe-i278.com to provide information about these project activities. For all NYC non-emergency services, including inquiries regarding NYCDOT construction projects, dial 311.
